

Ruby Class Spring 2019: Term Overview

It's going to be a hands-on and fun term in Ruby Class this spring. Below is the outline of our topic and information about home learning expectations.

You can find out more about what we're learning, including homework suggestions, in the curriculum map on our class page.

Mighty Metals

You're an engineer, a scientist, a maker of men (iron men, of course!)

Explore the scientific world of forces and magnetism, metals and materials... Expand your mind as you test and trial, build and move.

Which force is at play when you slide down a slide or swing on a swing? Can you explain why magnets repel and attract?

Then, meet the Iron Man and build him moving, light-up, magnetic companion. You must make them strong, sturdy and ready to rumble.

If you were a metal, which one would you be?

Maybe you're not a metal at all, but a force to be reckoned with!

Spellings: Our spelling tests are every Monday morning and the following week's spellings are sent home the same day.

Homework: This is linked to our topic learning and we expect to see one piece of homework every fortnight. For more ambitious pieces, we're happy to give extra time. We share our homework with the class every Tuesday.

PE: Our PE lessons are on Tuesdays and Thursdays this term. We will use the hall and outdoor pitches so please ensure you have warmer clothes for outdoor sessions.
